

Economic System of the Powhatan Confederacy

- ◆ *What elements were part of the economic system of the Powhatans? If they had a system of trade, what elements were part of it?*
- ◆ *What were the boundaries of the economic system? Where did they plant, gather, hunt, and fish food? Did they trade outside of their tribe? Within the tribe? On what was the division of labor based? Explain.*
- ◆ *What were the inputs to the economic system? What other foods did they have? For what did they trade?*
- ◆ *What were the outputs of the economic system? What agricultural products did they produce? What farming methods did they use? What did they use for trading?*
- ◆ *How might the interactions and outputs of the Powhatan Confederacy's economic system have changed when its inputs, elements, or boundaries changed?*
- ◆ *How was their economic system productive during the Colonial Era?*
- ◆ *What were some problems or examples of dysfunction in the economic system that the tribe had to face?*
- ◆ *The economic system of the Powhatan Confederacy was made up of what smaller systems?*
- ◆ *How were the individuals in the economic system interdependent with other members of the village or those outside the village?*
- ◆ *How did the economic system of the Powhatan Confederacy adapt when the Jamestown colonists became part of their environment?*
